# PRODUCT CATALOGUE

ORTHOPEDIC SUPPORTS

AROMMAC INDUSTRIES is a fast growing Indigenous Orthopaedic company specialised in the field of Orthopaedic Brace and Support. Founded in Industrial city of Surat (Gujarat) in late 2000's with state of art manufacturing facility, we sell and export of our patented brand AROMMAC.

We offer complete range of Orthopaedic Supports for the major injury-prone areas of the body, including the neck, foot, ankle, knee, back, shoulder, elbow and wrist "Empowering wellbeing" is what we strive for and what keeps us going. To accomplish that, we rigorously select the material and constantly innovate new designs to ensure that products provide effectiveness and comfort to our customers.

We mainly concentrate on Potential Export Markets, Private Labels/ OEM Clients and Domestic Channel Distribution with a network of dedicated dealers across the state. We believe in long term relationship building with both our distributors and end consumers by only offering quality products with reasonable price. We sincerely invite those who share the same believe and look forward to building a mutual prosperous business with you. To understand, care and make a meaningful difference to customers, employees, society with Innovation, Entrepreneurship, Transparency and Integrity our key motto.

Arommac Industries is promoted by the Khanna Group, which has varied business interests such as Textile Fabrics, Polyester Yarns and Knitted Fabrics. In FY 2022, the group combined with the Orthopaedic division achieved a turnover of greater than \$ 10 Million.

Our Quality Assurance have earned us ISO 9001:2015 and ISO 13485:2012 certifications. Our products manufactured have CE marking as per Medical Device Directive 93/42/EEC certifications.

**SOFT CERVICAL COLLAR**

**ACCS01**

**Features**

- Made of medium density foam
- Cotton stockinet for patient comfort
- Velcro closure for easy adjustment

**Indications**

- Neck Pain
- Stabilization of Neck
- Cervical Sprains & Strains

Size	S	M	L	XL
Inch	3.0-3.5	3.5-4.0	4.0-4.5	4.5-5.0
Cms	7.5-8.75	8.75-10	10-11.25	11.25-12.5

Measure the circumference of the Neck

**COLLAR SOFT EYELET**

**ACCS03**

**Features**

- Ventilation eyelets for moisture control
- Durable PE sheet for extended neck support
- Velcro closure for easy adjustment

**Indications**

- Neck Pain
- Stabilization of Neck
- Cervical Sprains & Strains

Size	S	M	L	XL
Inch	3.0-3.5	3.5-4.0	4.0-4.5	4.5-5.0
Cms	7.5-8.75	8.75-10	10-11.25	11.25-12.5

Measure the circumference of the Neck

**FIRM DENSITY SOFT COLLAR**

**ACCS02**

**Features**

- Made of high density foam
- Cotton stockinet for patient comfort
- Velcro closure for easy adjustment

**Indications**

- Neck Pain
- Stabilization of Neck
- Cervical Sprains & Strains

Size	S	M	L	XL
Inch	3.0-3.5	3.5-4.0	4.0-4.5	4.5-5.0
Cms	7.5-8.75	8.75-10	10-11.25	11.25-12.5

Measure the circumference of the Neck

**HARD COLLAR ADJUSTABLE**

**ACCS04**

**Features**

- Constructed out of dual plastic pieces
- Padded matrial for extra support neck
- Ventilation holes increase breathability & adds comfort
- Adjustable height mechanism

**Indications**

- Neck Pain
- Stabilization of Neck
- Cervical Sprains & Strains

Size	S	M	L	XL
Inch	3.0-3.5	3.5-4.0	4.0-4.5	4.5-5.0
Cms	7.5-8.75	8.75-10	10-11.25	11.25-12.5

Measure the circumference of the Neck

**CERVICAL CONTOUR PILLOW**

**ACCS05**

**Features**

- Unique contour design for firm neck support
- Soft fabric provides comfort to patients
- Effective support to neck due to contour design

**Indications**

- Neck Pain
- Stabilization of Neck
- Cervical Sprains & Strains

**Sizes**

**UNIVERSAL**

**Colors**

**WAIST TRIMMER 8"**

**ACWS02**

**Features**

- Durable 3 panel elastic construction
- Panels for firm fit
- Height of the elastic covers most effected region
- Velcro closure for easy adjustment & application

**Indications**

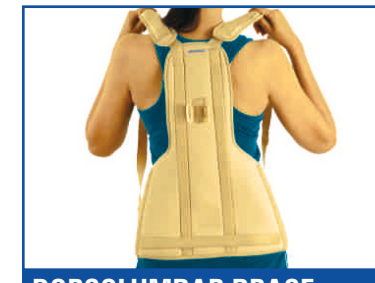

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the navel point

**DORSOLUMBAR BRACE**

**ACWS04**

**Features**

- Durable dual elastic construction
- 3 mild contoured aluminum stays with bonded fabrics for maximum compression
- Shoulder straps with pads for better posture
- Dual Velcro closure system for firm compression & Easy fit

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the navel point

**RIB BELT WOMEN**

**ACWS06**

**Features**

- High breathable elastic combined with bonded fabrics
- Unique contour design for comfort fit
- Velcro closure for easy adjustment

**Indications**

- Weakened rib muscle
- Fractured ribs

**Colors**

Size	S	M	L	XL	XXL
Inch	28-32	32-36	36-40	40-44	44-48
Cms	70-80	80-90	90-100	100-110	110-120

Measure the circumference of the chest below the underarms

**ABDOMINAL BINDER 10"**

**ACWS01**

**Features**

- Durable knit elastic ensures support to lumbar & sacral region
- Height of the elastic covers most effected region
- Velcro closure for easy adjustment & application

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the navel point

**LUMBAR SACRO SUPPORT**

**ACWS03**

**Features**

- Durable dual Premium elastic construction
- 5 Flexible splints with PU Foam bonded Panel for maximum compression
- Double side elastic pull mechanism
- Dual Velcro closure system for firm compression & easy fit

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the navel point

**RIB BELT MEN**

**ACWS05**

**Features**

- High breathable elastic combined with bonded fabrics
- Velcro closure for easy adjustment

**Indications**

- Weakened rib muscle
- Fractured ribs

**Colors**

Size	S	M	L	XL	XXL
Inch	28-32	32-36	36-40	40-44	44-48
Cms	70-80	80-90	90-100	100-110	110-120

Measure the circumference of the chest below the underarms

**MATERNITY SUPPORT**

**ACCS07**

**Features**

- Constructed of unique loop compatible fabrics
- Adjustable Velcro for easy application
- Breathable material for all day patient comfort

**Indications**

- Discomfort during pregnancy
- Lumbar muscle weakness Lumbar strains & sprains

**Sizes**

**UNIVERSAL**

## Waist Support

**CONTOURED LS BELT**  
**ACWS08**

**Features**

- Durable dual elastic construction
- 4 mild contoured aluminum stays with padding for maximum compression
- Double side elastic pull mechanism
- Dual Velcro closure system for firm compression & easy fit

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the naval point

**LUMBO SACRAL BELT**  
**ACWS09**

**Features**

- Durable dual elastic construction
- 4 rigid aluminum stays with bonded fabrics for maximum compression
- Double side elastic pull mechanism
- Dual Velcro closure system for firm compression & easy fit

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Colors**

Size	S	M	L	XL	XXL	XXXL
Inch	28-32	32-36	36-40	40-44	44-48	48-52
Cms	70-80	80-90	90-100	100-110	110-120	120-130

Measure the circumference of the abdomen at the naval point

## Wrist/Forearm Support

**NEOPRENE ABDOMINAL BINDER**  
**ACWS10**

**Features**

- Constructed out of neoprene with loop compatible fabric & nylon for extra compression
- Adjustable Velcro Closure for easy application & comfort
- Fits all waist sizes

**Indications**

- Mild back pain
- Lumbar muscle weakness
- Lumbar strains & sprains

**Sizes**

UNIVERSAL

**WRIST WRAP**  
**ACWFS01**

**Features**

- High Quality of elastic for maximum comfort
- Designed to give best fit & firm support to weakened wrist
- Breathable elastic ensures moisture control

**Indications**

- Sprained & strained wrist
- Weakened wrist joint
- Slight wrist instability

**Colors**

Size	S	M	L	XL
Inch	5-6	6-7	7-8	8-9
Cms	12.5-15	15-17.5	17.5-20	20-22.5

Measure the circumference of the wrist

## Wrist/Forearm Support

**WRIST SUPPORT**  
**ACWFS02**

**Features**

- High quality of elastic for maximum comfort with thumb loop
- Designed to give best fit & firm support to weakened wrist
- Breathable elastic ensures moisture control

**Indications**

- Sprained & strained wrist
- Weakened wrist joint
- Slight wrist instability

**Colors**

Size	S	M	L	XL
Inch	5-6	6-7	7-8	8-9
Cms	12.5-15	15-17.5	17.5-20	20-22.5

Measure the circumference of the wrist

**WRIST BRACE**  
**ACWFS03**

**Features**

- High quality of elastic for maximum comfort with thumb loop
- Designed to give best fit & firm support to weakened wrist
- Fits all wrist sizes

**Indications**

- Sprained & strained wrist
- Weakened wrist joint
- Slight wrist instability

**Colors**

**Sizes**  
UNIVERSAL

**WRIST & FOREARM BRACE**  
**ACWFS04**

**Features**

- Constructed out of bonded fabrics with Velcro Closures
- Anatomically-contoured aluminum palmar splint
- Adjustable Velcro straps for optimum support

**Indications**

- Sprained & Strained wrist
- Weakened wrist joint
- Slight wrist instability

**Colors**

Size	S	M	L	XL
Inch	5-6	6-7	7-8	8-9
Cms	12.5-15	15-17.5	17.5-20	20-22.5

Measure the circumference of the wrist

**THUMB SPICA SPLINT**  
**ACWFS05**

**Features**

- Constructed out of bonded fabric with thumb support
- Removable contoured aluminum splint to restrict movement & support on thumb joint
- Pull on style Velcro closure for maximum compression

**Indications**

- Sprained & strained wrist
- Weakened wrist joint
- Slight wrist instability
- Thumb sprain

**Colors**

**Sizes**  
UNIVERSAL

**ARM SLING POUCH**

**ACSS01**

**Features**

- Ergonomic designed as an envelope with thumb support mechanism
- Soft durable fabric with breathability provides comfort
- Adjustable shoulder strap with pad for extra immobilization

**Indications**

- Dislocated shoulder
- Fractured arm
- Immobilization after rotator cuff repair

**Sizes**

**UNIVERSAL**

**Colors**

**DELUXE ARM SLING POUCH**

**ACSS02**

**Features**

- Ergonomic design as an envelope with thumb support mechanism
- Soft bonded durable fabric with breath ability provides comfort
- Adjustable shoulder strap with pad for extra immobilization

**Indications**

- Dislocated shoulder
- Fractured arm
- Immobilization after rotator cuff repair

**Colors**

Size	S	M	L	XL
Inch	28-32	32-36	36-40	40-44
Cms	70-80	80-90	90-100	100-110

Measure the circumference of the chest below the underarms

**DELUXE SHULDER IMMOPLIER**

**ACSS03**

**Features**

- Composite construction of shoulder sling wrap-around shoulder strap
- Criss cross shoulder straps ensures optimum adjustment
- Hook & loop closures for ease in adjustment

**Indications**

- Dislocated shulder
- Fractured shoulder girdle
- Immobilization after rotator cuff repair

**Colors**

Size	S	M	L	XL	XXL
Inch	28-32	32-36	36-40	40-44	44-48
Cms	70-80	80-90	90-100	100-110	110-120

Measure the circumference of the chest below the underarms

**CLAVICLE BRACE**

**ACSS04**

**Features**

- Dual padded foam staps for great compression with buckle closures
- Buckle ensures flexibility & comfort fit
- Hook & loop closures for ease in adjustment

**Indications**

- Clavicle fracture & dislocation
- Immobilization of shoulder girdle

**Colors**

Size	S	M	L	XL	XXL
Inch	28-32	32-36	36-40	40-44	44-48
Cms	70-80	80-90	90-100	100-110	110-120

Measure the circumference of the chest below the underarms

**TENNIS ELBOW BRACE**

**ACSS05**

**Features**

- Wrap-around design with buckle closure
- Pressure pad gives extra cushioning
- Hook & loop closure for ease in adjustment

**Indications**

- Lateral epicondylitis
- Pressure muscle around the elbow
- Weakened tendon

**Sizes**

**UNIVERSAL**

**Colors**

**DELUXE ARM SLING (TROPICAL)**

**ACSS06**

**Features**

- Ergonomic contour design with thumb support mechanism
- Soft durable fabrics with breathability provides comfort
- Adjustable shoulder strap with pad for extra immobilization

**Indications**

- Dislocated shoulder
- Fractured arm
- Slight wrist instability

**Colors**

Size	S	M	L	XL
Inch	28-32	32-36	36-40	40-44
Cms	70-80	80-90	90-100	100-110

Measure the circumference of the chest below the underarms

**ANKLE WRAP**

**ACAKS01**

**Features**

- Constructed out high tension elastic material
- Excellent breathability and moisture control
- Hook & loop closure for ease in adjustment

**Indications**

- Mild ankle sprain
- Chronic ankle instability
- Swelling around the ankle joint

**Colors**

Size	S	M	L	XL
Inch	6-8	8-10	10-12	12-14
Cms	15-20	20-25	25-30	30-35

Measure the circumference of the ankle joint

**THIGH SUPPORT**

**ACAKS02**

**Features**

- Made out of breathable woven elastic material for moisture release
- Optimum two-way stretch for comfortable fit
- Ease pull on application

**Indications**

- Acute swelling
- Bruised thigh joint
- Thigh strains & pain

**Colors**

Size	S	M	L	XL	XXL
Inch	14.5-17	17-20.5	20.5-23	23-25.5	25.5-27
Cms	36.25-42.5	42.5-48.75	48.75-55	55-61.25	61.25-67.5

Measure the circumference of the mid thigh

**KNEE BRACE**  
**ACAKS03**

- Features**
- Circular knit material with two-way stretch & breath ability
  - Cotton layered inside for patient comfort
  - Easy pull on application

- Indications**
- Knee swelling & instability
  - Bruised knee joint
  - Knee strains & pain

**Colors**
